**Head and Neck Pathology: With Clinical Correlations, 1e** Yao S. Fu MD, Bruce M. Wenig MD, Elliot Abemayor MD, Barry Wenig MD

This groundbreaking resource examines the full range of head and neck diseases integrating both pathologic and clinical information for neoplastic as well as non-neoplastic entities. All aspects of pathologic issues are discussed from diagnosis to the pathologic parameters that have an impact on patient management. Section One covers general principles, including cellular and molecular biology, epidemiology, ethics, HIV and AIDS, and fine needle aspiration biopsies. Then, Section Two discusses diseases by anatomic site from the nasal cavity and paranasal sinuses...through the thyroid and parathyroid...to the ear and temporal lobe and neck.

- Presents in-depth discussions of pathology with clinical correlations enabling readers to improve diagnostic accuracy and understand the clinical problems associated with each diagnosis Includes in-depth coverage of gross and microscopic findings, the use of ultrastructural and immunohistochemical techniques in diagnosis and differential diagnosis
- Offers comprehensive coverage of surgical anatomy, physiology, diagnostic techniques, as well as clinical management Provides guidance on the handling and reporting of resected specimens
- Features over 1495 illustrations 1000 in full color that aid in diagnosis Includes an outline at the beginning of each chapter to make information easy to find
