## Natural Gas Pipeline Atlas of the United States and Canada

This CD-ROM identifies more than 300 major natural gas pipeline systems. This edition has been extensively updated to include more than 700 natural gas processing plants, LP gas import terminals and more than 400 natural gas storage areas. As the CD-ROM version of the wall map of the same name, it enables PC or Mac users to access regions of the USA, or window on a specific area. Users can print the entire map or any of six regional maps directly from the specially designed program. Included are four useful data tables: US LP gas import terminals, with capacities and dock restrictions; state-by-state listings of gas processing capabilities of the US and Canada; a listing of major gas pipeline companies with their subsidiaries; and a substantial listing of major natural gas processing plants, with parent-company phone numbers. Detailed insets include Alaska and Southern California. Cultural displays include counties and county seats, state and provincial capitals, major river systems and latitude-longitude lines. This title is also available for CAD and GIS.
