Carbon Sequestration in Forest Ecosystems

Klaus Lorenz, Rattan Lal

Carbon Sequestration in Forest Ecosystems Klaus Lorenz, Rattan Lal

Carbon Sequestration in Forest Ecosystems is a comprehensive book describing the basic processes of carbon dynamics in forest ecosystems, their contribution to carbon sequestration and implications for mitigating abrupt climate change. This book provides the information on processes, factors and causes influencing carbon sequestration in forest ecosystems. Drawing upon most up-to-date references, this book summarizes the current understanding of carbon sequestration processes in forest ecosystems while identifying knowledge gaps for future research. Thus, this book is a valuable knowledge source for students, scientists, forest managers and policy makers.
