## **Fotografia Digital (Portuguese Edition) L. Felipe**

Com o progressivo barateamento das câmeras digitais, as compactas estão dando vez às semiprofissionais. Por isso acabei também migrando, porém me vi de repente completamente desorientado nessa adaptação, pois se trata de um universo à parte. Percebi que existe um vácuo abismal entre os ensinamentos para a fotografia profissional e para a amadora. Se uma é extremamente técnica, a outra é extremamente simplista. Ou seja, ou você não aproveita praticamente nada, ou fica tentando compreender e aplicar a técnica, o que é extremamente complicado. A linguagem técnica da fotografia digital, pelo menos no primeiro momento, é confusa e desanimadora levando os novatos a se renderem aos automatismos oferecidos pelas câmeras semiprofissionais. No entanto, inconformado com isso, eu saí em busca de respostas às minhas dúvidas e, como curioso que sou, na busca do caminho das pedras. Confesso que só não desisti por conta da minha teimosia canceriana. O conhecimento disponibilizado pela internet ou é muito simplista ou é bastante complexo, por isso decidi explorar o espaço vazio e registrar toda essa experiência gratificante com o objetivo de ajudar meus parceiros de infortúnio.
