Aquecimento Global - alarme falso (Portuguese Edition) ralph alexander

Neste livro, o físico Ralph B. Alexander apresenta uma visão radicalmente contrária a tudo que tem se falado sobre o clima ultimamente. Analisando dados e modelos do IPCC (intergovernmental panel on climate change), nos quais se baseiam os relatórios climáticos da ONU, ficam evidentes as manipulações, má-ciência e até fraudes. Estas são as fontes de onde "bebeu" Al Gore para a produção de seu premiado documentário "Uma verdade Inconveniente". Os recentes episódios do encontro de Copenhague, em dezembro de 2009, mostraram que tanto a ONU quanto o IPCC se tornaram objeto de desconfiança mundial.
