Although a minority of the Asian population, Protestants in Asia are a fast-growing group. What are the political implications of this evangelical Christianity? In some cases, religion has enabled poor and marginalized people to gain greater prosperity, self-confidence and civic skills, and more open-minded and democratic societies. But does religion have the kind of cultural currency needed to generate political changes in governments such as China's? *Evangelical Christianity and Democracy in Asia* provides six case studies on China, Western India, Northeast India, Indonesia, South Korea, and the Philippines. The contributors, mainly younger scholars based in Asia, bring first hand-knowledge to their chapters. The result is a groundbreaking work, indispensable to everyone concerned with the future of the region. *Evangelical Christianity and Democracy in Asia* is one of four volumes in the series *Evangelical Christianity and Democracy in the Global South* and grew from a Pew-funded study that sought to answer the question: What happens when a revivalist religion based on scriptural orthodoxy participates in the volatile politics of the Third World? At a time when the global-political impact of another revivalist and scriptural religion - Islam - fuels debate, these volumes offer an unusual comparative perspective.
