The Bee: A Natural History

Noah Wilson Rich

The Bee: A Natural History Noah Wilson Rich

Eyes with more than 6,000 separate lenses; bodies so hairy that they attract pollen by static; the ability to communicate by dancing... bee stats are endlessly engrossing. And the bee is as important to the production of human food as any machine; without the bees to pollinate them, most of our crops would be dead in the field. So how did this furry little workaholic come to be so crucial to the planet?

The Bee: A Natural History answers that question and many more, looking at bee development from 65 million years ago to today, when over 20,000 bee species have been identified and beekeeping is enjoying a surge in popularity. Exploring evolution, anatomy, society, behaviour, and the human factor, and presenting a visual directory of 40 bee breeds alongside practical fact panels, this is the book that will become a buzz word for every keeper, student, or lover of bees.

From reader reviews:

Edris Sibert:

Do you have favorite book? When you have, what is your favorite's book? Publication is very important thing for us to find out everything in the world. Each guide has different aim as well as goal; it means that publication has different type. Some people feel enjoy to spend their time for you to read a book. They may be reading whatever they have because their hobby is actually reading a book. Why not the person who don't like reading through a book? Sometime, man or woman feel need book after they found difficult problem or perhaps exercise. Well, probably you should have this The Bee: A Natural History.

Errol Garvin:

As people who live in often the modest era should be revise about what going on or details even knowledge to make these people keep up with the era and that is always change and progress. Some of you maybe can update themselves by examining books. It is a good choice to suit your needs but the problems coming to you is you don't know what one you should start with. This The Bee: A Natural History is our recommendation to help you keep up with the world. Why, because book serves what you want and want in this era.

Gary Lewis:

Playing with family in the park, coming to see the marine world or hanging out with good friends is thing that usually you might have done when you have spare time, and then why you don't try thing that really opposite from that. Just one activity that make you not sensation tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love The Bee: A Natural History, it is possible to enjoy both. It is excellent combination right, you still want to miss it? What kind of hang type is it? Oh come on its mind hangout people. What? Still don't buy it, oh come on its known as reading friends.

Phillip Vargas:

As a pupil exactly feel bored to be able to reading. If their teacher inquired them to go to the library or even make summary for some reserve, they are complained. Just tiny students that has reading's soul or real their leisure activity. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that studying is not important, boring and also can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this period, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore, this The Bee: A Natural History can make you truly feel more interested to read.
