Therefore, in order to improve security of supply the Community has developed since 1973 a programme assisting the oil industry to develop new technologies required for exploiting oil and gas resources outside and inside the Community territories. This programme (Regulations 3056/73 and 3639/85) has allowed remarkable achievements in a sector where innovation is needed to take up the challenge of producing oil and gas in difficult environments. This report shows the achievements of the Community programme. It gives evidence of the high technical level which has already been attained by the companies in the oil and gas sector with the support of the Community.
