Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing)

Geoffrey Boothroyd, Peter Dewhurst, Winston A. Knight

Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing) Geoffrey Boothroyd, Peter Dewhurst, Winston A. Knight

Hailed as a groundbreaking and important textbook upon its initial publication, the latest iteration of **Product Design for Manufacture and Assembly** does not rest on those laurels. In addition to the expected updating of data in all chapters, this third edition has been revised to provide a top-notch textbook for university-level courses in product design and manufacturing design. The authors have added a comprehensive set of problems and student assignments to each chapter, making the new edition substantially more useful.

See what's in the Third Edition:

- Updated case studies on the application of DFMA techniques
- Extended versions of the classification schemes of the features of products that influence the difficulty of handling and insertion for manual, high-speed automatic, and robot assembly
- Discussions of changes in the industry such as increased emphasis on the use of surface mount devices
- New data on basic manufacturing processes
- Coverage of powder injection molding

Recognized as international experts on the re-engineering of electro-mechanical products, the methods and guidelines developed by Boothroyd, Dewhurst, and Knight have been documented to provide significant savings in the product development process. Often attributed with creating a revolution in product design, the authors have been working in product design manufacture and assembly for more than 25 years. Based on theory yet highly practical, their text defines the factors that influence the ease of assembly and manufacture of products for a wide range of the basic processes used in industry. It demonstrates how to develop competitive products that are simpler in configuration and easier to manufacture with reduced overall costs.

From reader reviews:

Jesse Valles:

Throughout other case, little people like to read book Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing). You can choose the best book if you'd prefer reading a book. So long as we know about how is important any book Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing). You can add information and of course you can around the world with a book. Absolutely right, since from book you can realize everything! From your country until foreign or abroad you will be known. About simple matter until wonderful thing you are able to know that. In this era, we can easily open a book as well as searching by internet system. It is called e-book. You need to use it when you feel fed up to go to the library. Let's examine.

David Lucero:

Playing with family within a park, coming to see the water world or hanging out with friends is thing that usually you could have done when you have spare time, and then why you don't try matter that really opposite from that. One activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing), you can enjoy both. It is excellent combination right, you still need to miss it? What kind of hangout type is it? Oh come on its mind hangout folks. What? Still don't understand it, oh come on its named reading friends.

Patricia Little:

The book untitled Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing) contain a lot of information on that. The writer explains your girlfriend idea with easy means. The language is very straightforward all the people, so do not necessarily worry, you can easy to read the idea. The book was written by famous author. The author gives you in the new era of literary works. It is possible to read this book because you can keep reading your smart phone, or product, so you can read the book in anywhere and anytime. In a situation you wish to purchase the e-book, you can start their official web-site and order it. Have a nice learn.

Joseph Mesta:

What is your hobby? Have you heard which question when you got college students? We believe that that query was given by teacher on their students. Many kinds of hobby, Every individual has different hobby. And you also know that little person just like reading or as examining become their hobby. You need to know that reading is very important as well as book as to be the factor. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You get good news or update in

relation to something by book. Many kinds of books that can you choose to use be your object. One of them is this Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing).
