SAP HANA Cookbook Chandrasekhar Mankala, Ganesh Mahadevan V.

In Detail

SAP HANA is a real-time applications platform that provides a multi-purpose, in-memory appliance. Decision makers in the organization can gain instant insight into business operations. Thus all the data available can be analysed and you can react to the changing business conditions rapidly to make decisions. The real-time platform not only empowers business users and top management to make decisions but also provides the capability to make decisions in real-time.

A practical and comprehensive guide that helps you understand the power of SAP HANA's real-time and in-memory capabilities. It also provides step-by-step instructions to exploit all the possible features of the SAP HANA database, enabling users to harness the full potential of this technology and its features.

You will gain an understanding of real-time replications, effective data loading from various sources, how to load data, and how to create re-usable objects such as models and reports.

Use this practical guide to enable or transform your business landscape by implementing SAP HANA to meet your business requirements. The book shows you how to load data from different types of systems, create models in SAP HANA, and consume data for decision-making. The book covers various tools at different stages creating models using SAP HANA Studio, and consuming data using reporting tools such as SAP BusinessObjects, SAP Lumira, and so on . This book also explains the in-depth architecture of SAP HANA to help you understand SAP HANA as an appliance, that is, a combination of hardware and software.

The book covers the best practices to leverage SAP HANA's in-memory technology to transform data into insightful information. It also covers technology landscaping, solution architecture, connectivity, data loading, and setting up the environment for modeling purpose (including setup of SAP HANA Studio).

If you have an intention to start your career as SAP HANA Modeler, this book is the perfect start.

Approach

An easy-to-understand guide, covering topics using practical scenarios and live examples, and answering all possible questions.

Who this book is for

If you are a solution architect, developer, modeler, sales leader, business transformation managers, directors, COO, or CIO; this book is perfect for you.

If you are interested in other technologies and want to jump-start into SAP, this book gives you the chance to learn SAP HANA. Basic knowledge of RDBMS concepts enough is to get you started.

From reader reviews:

Madge Stamps:

The reason? Because this SAP HANA Cookbook is an unordinary book that the inside of the guide waiting for you to snap that but latter it will jolt you with the secret this inside. Reading this book next to it was fantastic author who write the book in such incredible way makes the content inside of easier to understand, entertaining method but still convey the meaning completely. So , it is good for you for not hesitating having this any longer or you going to regret it. This excellent book will give you a lot of advantages than the other book include such as help improving your skill and your critical thinking method. So , still want to postpone having that book? If I have been you I will go to the e-book store hurriedly.

Eleanor Hotchkiss:

This SAP HANA Cookbook is great e-book for you because the content that is full of information for you who have always deal with world and have to make decision every minute. This book reveal it data accurately using great plan word or we can point out no rambling sentences within it. So if you are read that hurriedly you can have whole data in it. Doesn't mean it only gives you straight forward sentences but tricky core information with wonderful delivering sentences. Having SAP HANA Cookbook in your hand like having the world in your arm, data in it is not ridiculous one particular. We can say that no e-book that offer you world within ten or fifteen moment right but this reserve already do that. So , this is good reading book. Hello Mr. and Mrs. busy do you still doubt this?

Karen Tullis:

In this particular era which is the greater individual or who has ability in doing something more are more treasured than other. Do you want to become one among it? It is just simple strategy to have that. What you should do is just spending your time almost no but quite enough to enjoy a look at some books. On the list of books in the top listing in your reading list is actually SAP HANA Cookbook. This book that is certainly qualified as The Hungry Inclines can get you closer in getting precious person. By looking upward and review this guide you can get many advantages.

Cynthia Haynes:

As a university student exactly feel bored to be able to reading. If their teacher asked them to go to the library as well as to make summary for some guide, they are complained. Just minor students that has reading's heart and soul or real their passion. They just do what the teacher want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that looking at is not important, boring along with can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this SAP HANA Cookbook can make you experience more interested to read.
