Science Learning, Science Teaching Jerry Wellington, Gren Ireson

Now fully updated in its third edition, *Science Learning, Science Teaching* offers an accessible, practical guide to creative classroom teaching and a comprehensive introduction to contemporary issues in science education.

Aiming to encourage and assist professionals with the process of reflection in the science classroom, the new edition examines the latest research in the field, changes to curriculum and the latest standards for initial teacher training. Including two brand new chapters, key topics covered include:

- the science curriculum and science in the curriculum
- planning and managing learning
- learning in science – including consideration of current ‘fads’ in learning
- safety in the science laboratory
- exploring how science works
- using ICT in the science classroom
- teaching in an inclusive classroom
- the role of practical work and investigations in science
- language and literacy in science
- citizenship and sustainability in science education.

Including useful references, further reading lists and recommended websites, *Science Learning, Science Teaching* is an essential source of support, guidance and inspiration all students, teachers, mentors and those involved in science education wishing to reflect upon, improve and enrich their practice.

From reader reviews:

Roy Brown:

Information is provisions for individuals to get better life, information these days can get by anyone in everywhere. The information can be a understanding or any news even a concern. What people must be consider when those information which is within the former life are difficult to be find than now's taking seriously which one is appropriate to believe or which one the resource are convinced. If you get the unstable resource then you get it as your main information there will be huge disadvantage for you. All of those possibilities will not happen within you if you take Science Learning, Science Teaching as the daily resource information.

Lawrence Elam:

Science Learning, Science Teaching can be one of your beginning books that are good idea. All of us recommend that straight away because this book has good vocabulary that can increase your knowledge in vocab, easy to understand, bit entertaining but still delivering the information. The article writer giving his/her effort to place every word into delight arrangement in writing Science Learning, Science Teaching nevertheless doesn't forget the main position, giving the reader the hottest along with based confirm resource details that maybe you can be one of it. This great information can draw you into new stage of crucial thinking.

Frank Botelho:

Your reading sixth sense will not betray you, why because this Science Learning, Science Teaching book written by well-known writer who knows well how to make book that can be understand by anyone who have read the book. Written inside good manner for you, dripping every ideas and writing skill only for eliminate your own personal hunger then you still skepticism Science Learning, Science Teaching as good book not simply by the cover but also from the content. This is one publication that can break don't assess book by its cover, so do you still needing another sixth sense to pick this kind of!?! Oh come on your examining sixth sense already alerted you so why you have to listening to one more sixth sense.

Scott Schiller:

You could spend your free time to read this book this book. This Science Learning, Science Teaching is simple bringing you can read it in the area, in the beach, train and also soon. If you did not possess much space to bring the printed book, you can buy the actual e-book. It is make you easier to read it. You can save the actual book in your smart phone. Thus there are a lot of benefits that you will get when one buys this book.
