Quantum Field Theory I: Basics in Mathematics and Physics: Basics in Mathematics and Physics v. 1

Eberhard Zeidler

This is the first volume of a modern introduction to quantum field theory which addresses both mathematicians and physicists ranging from advanced undergraduate students to professional scientists. The book tries to bridge the existing gap between the different languages used by mathematicians and physicists. For students of mathematics it is shown that detailed knowledge of the physical background helps to motivate the mathematical subjects and to discover interesting interrelationships between quite different mathematical topics. For students of physics, fairly advanced mathematics is presented, which is beyond the usual curriculum in physics. It is the author's goal to present the state of the art of realizing Einstein's dream of a unified theory for the four fundamental forces in the universe (gravitational, electromagnetic, strong, and weak interaction). From the reviews: '... Quantum field theory is one of the great intellectual edifices in the history of human thought. ... This volume differs from other books on quantum field theory in its greater emphasis on the interaction of physics with mathematics. ... an impressive work of scholarship.' (SIAM Review 2008)

From reader reviews:

Kim McLoughlin:

The particular book Quantum Field Theory I: Basics in Mathematics and Physics: Basics in Mathematics and Physics v. 1 will bring you to definitely the new experience of reading some sort of book. The author style to clarify the idea is very unique. If you try to find new book to read, this book very suited to you. The book Quantum Field Theory I: Basics in Mathematics and Physics: Basics in Mathematics and Physics v. 1 is much recommended to you to see. You can also get the e-book from the official web site, so you can more readily to read the book.

Kelli Valverde:

The publication with title Quantum Field Theory I: Basics in Mathematics and Physics: Basics in Mathematics and Physics v. 1 has lot of information that you can study it. You can get a lot of advantage after read this book. This book exist new information the information that exist in this publication represented the condition of the world right now. That is important to you to find out how the improvement of the world. This kind of book will bring you inside new era of the internationalization. You can read the e-book on the smart phone, so you can read the item anywhere you want.

Johnny Relyea:

Beside that Quantum Field Theory I: Basics in Mathematics and Physics: Basics in Mathematics and Physics v. 1 in your phone, it can give you a way to get more close to the new knowledge or details. The information and the knowledge you may got here is fresh through the oven so don't become worry if you feel like an outdated people live in narrow commune. It is good thing to have Quantum Field Theory I: Basics in Mathematics and Physics: Basics in Mathematics and Physics v. 1 because this book offers to your account readable information. Do you oftentimes have book but you would not get what it's exactly about. Oh come on, that will not happen if you have this in your hand. The Enjoyable option here cannot be questionable, just like treasuring beautiful island. Use you still want to miss that? Find this book and read it from now!

Donna Canales:

A lot of people said that they feel bored when they reading a book. They are directly felt that when they get a half parts of the book. You can choose the particular book Quantum Field Theory I: Basics in Mathematics and Physics: Basics in Mathematics and Physics v. 1 to make your current reading is interesting. Your personal skill of reading skill is developing when you just like reading. Try to choose basic book to make you enjoy to see it and mingle the sensation about book and reading especially. It is to be 1st opinion for you to like to start a book and go through it. Beside that the e-book Quantum Field Theory I: Basics in Mathematics and Physics: Basics in Mathematics and Physics v. 1 can to be a newly purchased friend when you're feel alone and confuse using what must you're doing of their time.
