Sur la pierre blanche et Pierre Nozière (French Edition) Anatole France

Quelques Français, liés d'amitié, qui passaient le printemps à Rome, se rencontraient souvent dans le Forum désenseveli. C'étaient Joséphin Leclerc, attaché d'ambassade en congé; M. Goubin, licencié ès lettres, annotateur; Nicole Langelier, de la vieille famille parisienne des Langelier, imprimeurs et humanistes; Jean Boilly, ingénieur; Hippolyte Dufresne, qui avait des loisirs et aimait les arts. Le 1er mai, vers cinq heures du soir, ils franchirent comme de coutume, la petite porte septentrionale, inconnue du public, où le commandeur Giacomo Boni, directeur des fouilles, les accueillit avec son aménité silencieuse et les conduisit jusqu'au seuil de sa maison de bois, ombragée de lauriers, de troènes et de cytises, qui domine cette vaste fosse creusée, au siècle dernier, dans le marché aux boeufs de la Rome pontificale, jusqu'au sol du Forum antique. Là, ils s'arrêtent et regardent. En face d'eux se dressent les fûts tronqués des stèles honoraires et l'on voit comme un grand damier avec ses dames à la place où fut la basilique Julia. Plus au sud, les trois colonnes du temple des Dioscures trempent dans l'azur du ciel leurs volutes bleuissantes. A leur droite, surmontant l'arc ruineux de Septime Sévère et les hautes colonnes des demeures de Saturne, les maisons de la Rome chrétienne et l'hôpital des femmes étagent sur le Capitole leurs façades plus jaunes et plus fangeuses que les eaux du Tibre. Vers leur gauche s'élève le Palatin flanqué de grandes arches rouges et couronné d'yeuses. Et sous leurs pieds, d'un mont à l'autre, entre les dalles de la voie Sacrée aussi étroite qu'une rue de village, sortent de terre des murs de brique et des bases de marbre, restes des édifices qui couvraient le Forum au temps de la force latine. Le trèfle, l'avoine et l'herbe des champs, que le vent a semés sur leur faite abaissé, leur font un toit rustique où flamboie le coquelicot. Débris d'entablements écroulés, multitude de piliers et d'autels, enchevêtrement de degrés et d'enceintes: tout cela, non point petit, assurément, mais d'une grandeur contenue et pressée.
