Traumatologie du rachis (French Edition)

Jean-Claude Dosch

Traumatologie du rachis (French Edition) Jean-Claude Dosch

Les lésions traumatiques du rachis, outre leur extrême diversité allant de la banale contusion osseuse par compression aux formes les plus complexes par cisaillement, suscitent invariablement un sentiment d'inquiétude, plus ou moins justifié par la crainte d'un handicap fonctionnel ou d'un déficit neurologique définitif.

Cette crainte est avant tout liée à la complexité du rachis. Constitué d'un savant mélange de matériaux, de maillons forts et faibles, de variantes anatomiques, d'unités fonctionnelles élémentaires, son architecture lui assure, dans des conditions normales, un triple rôle : stabilité, mobilité et protection de l'axe cérébro-spinal. Cet ouvrage, richement illustré, comporte :

- un volet diagnostique, optimisant les outils - radiographie, scanner, IRM - mis à disposition des radiologues ;
- un versant consacré aux lésions traumatiques, à leur fréquence, leur particularité, leur pronostic selon la topographie, l'âge du patient et l'état du rachis. Un chapitre particulier aborde l'apport spécifique de l'imagerie par résonance magnétique.

Enfin, une ultime partie est consacrée aux bases thérapeutiques des lésions les plus couramment rencontrées, à savoir celles du rachis thoraco-lombaire.

Outil indispensable, cet ouvrage s'adresse aux radiologues, confirmés ou débutants, orthopédistes se destinant à la chirurgie du rachis. Il intéressera aussi les médecins urgentistes et rééducateurs.

Dixie Santiago:

Spent a free time for you to be fun activity to do! A lot of people spent their spare time with their family, or all their friends. Usually they carrying out activity like watching television, going to beach, or picnic from the park. They actually doing same thing every week. Do you feel it? Would you like to something different to fill your own free time/ holiday? Might be reading a book might be option to fill your totally free time/ holiday. The first thing you will ask may be what kinds of e-book that you should read. If you want to consider look for book, may be the guide untitled Traumatologie du rachis (French Edition) can be great book to read. May be it may be best activity to you.

Pamela Bost:

As a scholar exactly feel bored in order to reading. If their teacher requested them to go to the library or make summary for some e-book, they are complained. Just small students that has reading's heart and soul or real their hobby. They just do what the teacher want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that examining is not important, boring and also can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Traumatologie du rachis (French Edition) can make you really feel more interested to read.
