EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao

The first EPMESC Conference took place in 1985. It was during the Conference, recognising the success it had been, that the promoters decided to organise other EPMESC conferences, giving birth to a new series of international meetings devoted to computational methods in engineering.

The variety of subjects covered by the papers submitted to the 7th Conference demonstrates how much computational methods expanded and became richer in their applications to Science and Technology. New paradigms are being cultivated as non-numerical applications started to compete with the more traditional numerical ones. The scientific and technological communities to which the EPMESC Conferences used to be addressed themselves have changed.

The two-volume Proceedings that we achieved to gather represent many of the interesting developments that are taking place, not only in the Asia Pacific Region, but also in some other scientifically advanced parts of the World, and cover a vast list of subjects grouped under the following headings: Applied Mathematics; Physics and Materials Science; Solid Mechanics; Finite Element and Boundary Element Methods; Structural Analysis; Structural Dynamics and Earthquake Engineering; Structural Engineering; Reinforced Concrete; Knowledge-Based Systems; Artificial Neural Networks and Genetic Algorithms; Computer-Aided Instruction; Computer-Aided Design and Computer-Aided Engineering; Geographic Information Systems; Environmental Applications; Road Engineering; Geotechnics; Soil Mechanics; Fluid Mechanics and Hydraulics.

Two hundred and fifty one summaries were accepted, many of them with comments and restrictions, by the Programme Committee.

From these, 153 papers resulted, many of them from Portuguese and Chinese origin, that were submitted to the revision of an international panel of referees from Australia, Belgium, Brazil, China, Italy, Macao, Portugal, Switzerland, United Kingdom and United States, to which we gladly acknowledge our gratitude and appreciation.

From reader reviews:

Ernest Ainsworth:

This book untitled EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao to be one of several books this best seller in this year, that is because when you read this reserve you can get a lot of benefit on it. You will easily to buy that book in the book store or you can order it through online. The publisher with this book sells the e-book too. It makes you quickly to read this book, because you can read this book in your Mobile phone. So there is no reason to your account to past this reserve from your list.

Paul Douglas:

As we know that book is very important thing to add our expertise for everything. By a book we can know everything we wish. A book is a list of written, printed, illustrated or blank sheet. Every year had been exactly added. This e-book EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao was filled regarding science. Spend your spare time to add your knowledge about your science competence. Some people has distinct feel when they reading a book. If you know how big benefit of a book, you can truly feel enjoy to read a book. In the modern era like at this point, many ways to get book which you wanted.

Kristen Mazur:

That e-book can make you to feel relax. This book EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao was bright colored and of course has pictures around. As we know that book EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao has many kinds or genre. Start from kids until adolescents. For example Naruto or Investigation company Conan you can read and feel that you are the character on there. Therefore not at all of book usually are make you bored, any it can make you feel happy, fun and rest. Try to choose the best book to suit your needs and try to like reading that.

Jessica Adkins:

Publication is one of source of understanding. We can add our expertise from it. Not only for students but also native or citizen will need book to know the upgrade information of year for you to year. As we know those guides have many advantages. Beside all of us add our knowledge, also can bring us to around the world. Through the book EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao we can acquire more advantage. Don't you to be creative people? Being creative person must like to read a book. Just simply choose the best book that suited with your aim. Don't end up being doubt to change your life at this time book EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in

Engineering and Science, 2-5 August 1999, Macao. You can more desirable than now.
