## **Citrus Health Management (The Plant Health Management) L. W. Timmer**

Citrus Health Management is the fourth title in the Plant Health Management Series designed to aid in developing a successful plant health program. It emphasizes current Integrated Pest Management practices.

Management practices cover not only the interrelationship between plant, pathogen and the environment, but also describe several economic and environmental issues related to citrus health. This combination creates a holistic treatment of citrus health management.

Following the detailed management methods explained in Citrus Health Management will help produce healthy and profitable citrus crops.
