**Nuclear and Radiochemistry (Elsevier Insights)** Jozsef Konya, Noémi M Nagy

The field of nuclear and radiochemistry is wide-reaching, with results having functions and use across a variety of disciplines. Drawing on 40 years of experience in teaching and research, this concise book explains the basic principles and applications of the primary areas of nuclear and radiochemistry. Separate chapters cover each main area of recent radiochemistry. This includes nuclear medicine and chemical aspects of nuclear power plants, namely the problems of nuclear wastes and nuclear analysis (both bulk and surface analysis), with the analytical methods based on the interactions of radiation with matter. Furthermore, special attention is paid to thermodynamics of radioisotope tracer methods, the very diluted system (carrier-free radioactive isotopes) and the principles of chemical processes with unsealed radioactive sources. This book will be helpful to students and researchers in chemistry, chemical engineering, environmental sciences, and specialists working in all fields of radiochemistry.

- Basic concepts are introduced and practical applications explained, providing a full view of the subject.
- Laboratory work with unsealed radiochemicals is discussed in details that can be applied in research and authority in the lab environment.

### **From reader reviews:**

#### **Amanda Doss:**

This Nuclear and Radiochemistry (Elsevier Insights) usually are reliable for you who want to become a successful person, why. The key reason why of this Nuclear and Radiochemistry (Elsevier Insights) can be on the list of great books you must have is definitely giving you more than just simple examining food but feed you actually with information that maybe will shock your prior knowledge. This book is definitely handy, you can bring it almost everywhere and whenever your conditions both in e-book and printed people. Beside that this Nuclear and Radiochemistry (Elsevier Insights) forcing you to have an enormous of experience such as rich vocabulary, giving you trial run of critical thinking that we know it useful in your day pastime. So , let's have it and revel in reading.

#### **Richard Powe:**

Do you have something that you enjoy such as book? The book lovers usually prefer to opt for book like comic, small story and the biggest some may be novel. Now, why not hoping Nuclear and Radiochemistry (Elsevier Insights) that give your satisfaction preference will be satisfied through reading this book. Reading routine all over the world can be said as the means for people to know world a great deal better then how they react toward the world. It can't be said constantly that reading habit only for the geeky individual but for all of you who wants to become success person. So , for all you who want to start looking at as your good habit, you could pick Nuclear and Radiochemistry (Elsevier Insights) become your own personal starter.

#### **Marian Buell:**

Are you kind of stressful person, only have 10 or even 15 minute in your day to upgrading your mind skill or thinking skill perhaps analytical thinking? Then you are experiencing problem with the book than can satisfy your short time to read it because all this time you only find reserve that need more time to be study. Nuclear and Radiochemistry (Elsevier Insights) can be your answer as it can be read by anyone who have those short extra time problems.

#### **Ernest Nunez:**

Reading a e-book make you to get more knowledge from the jawhorse. You can take knowledge and information from your book. Book is published or printed or created from each source which filled update of news. On this modern era like right now, many ways to get information are available for anyone. From media social like newspaper, magazines, science guide, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Are you hip to spend your spare time to open your book? Or just seeking the Nuclear and Radiochemistry (Elsevier Insights) when you required it?
