## 'Los Invisibles': A History of Male Homosexuality in Spain, 1850-1940 (University of Wales - Iberian and Latin American Studies) Richard Cleminson, Francisco Vázquez García

Gender studies of Spain has thus far focused almost exclusively on women, leaving the social and political history of male homosexuality virtually untouched. *'Los Invisibles'* fills this significant gap in the study of Spanish culture by analyzing the effects of medical and legal regulation on male homosexuals. Drawing from the discourse of medical history, Richard Cleminson and Francisco Vázquez García evaluate the impact of psychiatry, education, race, and the growth of gay subcultures on cultural representations of homosexuality in this pioneering study.
